Education

Nanyang Technological University

Master of Computing in Applied Artificial Intelligence (MCAAI), College of Computing and Data Science (CCDS) 08/2026–Present

Central South University

BSc in Computer Science and Technology; GPA: **90.95/100** 09/2022–07/2026

University of Dundee

Dundee International Institute, Central South University; **First Class Honours** 09/2022–07/2026

Research Projects

MMP-2K | Macro Photography IQA Benchmark

IEEE ICIP 2025 [Paper](#) [GitHub](#) 02/2024–01/2025

- Led **dataset design, subjective studies, and distortion annotations**; built a **Vue + Flask** platform and delivered a reproducible macro-photography IQA benchmark, presented as a Poster Presenter at IEEE ICIP 2025.

FLEX-MMP | Explainable Multi-task Macro Photography IQA

Ongoing Research Project 04/2026–Present

- Develop **FLEX-MMP**, an explainable multi-task NR-IQA framework that couples overall-quality regression with local-distortion diagnosis through shared **multi-scale ResNet quality features**; jointly predicts quality, distortion category, location, severity, and a degradation map.

When Composition Doesn't Add Up | Human Detection of AI Image Defects

IEEE MMSP 2026 [Paper](#) [GitHub](#) 08/2025–09/2026

- Designed **global defect categories and localized annotations** and led **modeling and validation** for a human study of compositional defects, producing a reproducible AI-image-defect evaluation workflow.

PSYNAV | User Needs and Design for AI Psychological Assistants

AICSIP 2025 [Paper](#) 07/2023–08/2023

- Conducted a three-stage **user-needs and participatory-design** study using surveys, interviews, low-fidelity co-design, and high-fidelity web-prototype feedback; translated findings into evidence-based system requirements.

Internship Experience

Western Securities Co., Ltd.

IT Intern, Information Technology Department 07/2025–08/2025

- Defined requirements for **AI-enabled operational support**; built **Diffy-based AI agent prototypes** for multi-source integration and multi-agent fault analysis, and contributed to internal-AI-competition system modeling and solution design.

EAST Energy Storage Technology Co., Ltd.

Backend Intern, Photovoltaic and Energy Storage Products Department 07/2024–09/2024

- Implemented **voice and face-recognition login** with Baidu AI Cloud APIs and Python/Flask; developed **API integration and data-processing flows** for an energy-storage platform.

Awards and Skills

- **Awards:** Third-Class Scholarship (2022–2025), Outstanding Graduate (06/2026), Excellent Student Leader (2022–2023), Central South University; Third Prize, China Collegiate Service Outsourcing Innovation and Entrepreneurship Competition (06/2024)
- **Skills:** Python, Java, C, C++, JavaScript, HTML/CSS, Bash; Flask, Vue, ElementUI, Diffy, Git, Codex; Mandarin native, IELTS 7.0 (L 8.5 / R 7.5 / W 6.0 / S 6.5)
