Education

Nanyang Technological University

MSc in Applied Artificial Intelligence, College of Computing and Data Science 08/2026–Present

Central South University

Bachelor's Degree in Computer Science and Technology 09/2022–07/2026

- Final weighted average score: **90.95/100**.

University of Dundee

Dundee International Institute of Central South University 09/2022–07/2026

- Awarded **First Class Honours**.

Research Projects

MMP-2K: A Benchmark Multi-Labeled Macro Photography Image Quality Assessment Database

IEEE ICIP 2025 [Paper](#) [GitHub](#) 02/2024–01/2025

- Led the construction of a **multi-labeled macro-photography IQA dataset**, covering image selection, subjective studies, and distortion-oriented quality annotations for diverse macro-image content and quality conditions.
- Designed **subjective-scoring, quality-control, and label-verification workflows**; developed a **Vue + Flask** platform for annotation, sample retrieval, study management, and result viewing, with data and resources released on GitHub and Hugging Face.
- Delivered a **reproducible benchmark** for macro-photography IQA that exposes limitations of generic IQA metrics on macro images; presented the work as a Poster Presenter at IEEE ICIP 2025.

When Composition Doesn't Add Up: Humans Identifying Defects in AI-Generated Images

IEEE MMSP 2026 [Paper](#) [GitHub](#) 2025–2026

- Constructed the **CO-AID study dataset**, organizing generation prompts and AI-generated images; designed **global defect labels and localized annotations** with normalized coordinates for traceable image-participant-defect records.
- Conducted **modeling and validation** for a human study of compositional defects in AI-generated images, combining participant-reliability assessment and outlier handling to produce reproducible data and analysis workflows.

PSYNAV: Exploring User Needs and Expectation and Designing AI Psychological Assistants

AICSIP 2025 [Paper](#) 07/2023–08/2023

- Conducted a three-stage **user-needs and participatory-design** study: surveys and interviews, a low-fidelity prototype co-designed with psychology and computer-science students, and a web-based high-fidelity prototype for feedback-driven system requirements.

Internship Experience

Western Securities Co., Ltd.

IT Intern, Information Technology Department 07/2025–08/2025

- Analyzed securities workflows and mapped data sources, requirements, and application scenarios for **AI-enabled operational support**.
- Built **Dify-based AI agent prototypes** for multi-source data integration and multi-agent fault analysis, validating agent-based business assistance.
- Contributed to **system modeling, data preparation, and technical-solution design** for internal AI competition projects, translating business requirements into demonstrable prototypes.

EAST Energy Storage Technology Co., Ltd.

Backend Intern, Photovoltaic and Energy Storage Products Department 07/2024–09/2024

- Implemented **voice and face-recognition login** using Baidu AI Cloud APIs and a Python/Flask backend, integrating third-party AI services with the product authentication flow.
- Developed **API integration and data-processing flows** for an energy-storage product platform, improving feature completeness and maintainability.

Awards and Skills

- Third-Class Scholarship, Central South University 2022–2023, 2023–2024, 2024–2025
- Outstanding Graduate, Central South University 06/2026
- Excellent Student Leader, Central South University 2022–2023
- Third Prize, China Collegiate Service Outsourcing Innovation and Entrepreneurship Competition 06/2024
- **Programming:** Python, Java, C, C++, JavaScript, HTML/CSS, Bash
- **Tools:** Flask, Vue, ElementUI, Dify, Git, Codex
- **Languages:** Mandarin Chinese native; English IELTS 7.0 (L 8.5 / R 7.5 / W 6.0 / S 6.5), CET-4 589, CET-6 515
