Education

Nanyang Technological University

MSc in Applied Artificial Intelligence, College of Computing and Data Science 08/2026–Present

Central South University

Bachelor's Degree in Computer Science and Technology 09/2022–07/2026

- Final weighted average score: **90.95/100**.

University of Dundee

Dundee International Institute of Central South University 09/2022–07/2026

- Awarded **First Class Honours**.

Research Projects

MMP-2K | Macro Photography IQA Benchmark

IEEE ICIP 2025 [Paper](#) [GitHub](#) 02/2024–01/2025

- Led **dataset design and subjective studies**, including image selection and distortion annotations for macro-photography quality issues; built a **Vue + Flask** platform for data collection, study management, and retrieval.
- Delivered a **reproducible macro-photography IQA benchmark** that exposes limitations of generic quality metrics in this setting; presented the work as a Poster Presenter at IEEE ICIP 2025 and released the research resources.

When Composition Doesn't Add Up | Human Detection of AI Image Defects

IEEE MMSP 2026 [Paper](#) [GitHub](#) 2025–2026

- Constructed the **CO-AID study dataset** with **global defect categories and localized annotations**; organized prompts, images, participants, and defect locations as traceable structured records.
- Led **modeling and validation** for a human study of compositional defects in AI-generated images, combining participant-reliability assessment and outlier handling to create a reproducible evaluation workflow.

PSYNAV | User Needs and Design for AI Psychological Assistants

AICSIP 2025 [Paper](#) 07/2023–08/2023

- Conducted a three-stage **user-needs and participatory-design** study using surveys, interviews, low-fidelity co-design, and high-fidelity web-prototype feedback; translated findings into evidence-based system requirements.

Internship Experience

Western Securities Co., Ltd.

IT Intern, Information Technology Department 07/2025–08/2025

- Analyzed securities workflows, data sources, and application scenarios to define requirements for **AI-enabled operational support**.
- Built **Dify-based AI agent prototypes** for multi-source integration and multi-agent fault analysis; contributed to **system modeling, data preparation, and technical-solution design** for an internal AI competition, translating business requirements into demonstrable prototypes.

EAST Energy Storage Technology Co., Ltd.

Backend Intern, Photovoltaic and Energy Storage Products Department 07/2024–09/2024

- Implemented **voice and face-recognition login** using Baidu AI Cloud APIs and a Python/Flask backend, integrating third-party AI services with product authentication.
- Developed **API integration and data-processing flows** for an energy-storage platform, improving feature completeness and maintainability.

Awards and Skills

• Third-Class Scholarship, Central South University 2022–2023, 2023–2024, 2024–2025

• Outstanding Graduate, Central South University 06/2026

• Excellent Student Leader, Central South University 2022–2023

• Third Prize, China Collegiate Service Outsourcing Innovation and Entrepreneurship Competition 06/2024

• **Programming:** Python, Java, C, C++, JavaScript, HTML/CSS, Bash

• **Tools:** Flask, Vue, ElementUI, Dify, Git, Codex

• **Languages:** Mandarin Chinese native; English IELTS 7.0 (L 8.5 / R 7.5 / W 6.0 / S 6.5), CET-4 589, CET-6 515
